

HOW ABOUT...

inno^{fi}

Inno, since 1975.

Be inspired by the Inno collection, a mixture of proven classics and fresh novelties.

The aim of the collection is to provide architects and interior designers different looking and useful interior objects as tools for modern interiors.

How about... Inno is a teaser to have a taste of our assortment. More info in separate brochures, catalogues and our webpage.

KOLA STACK A

KOLA LOUNGE

KOLA

Kola family consists of Kola Lounge chair, the casual meeting or dining chair Kola Light, the sympathetic Kola Rocking Chair and the appealing Kola Stack chair with or without armrests. Kola Stack is also available with personal patterns cut out in the back. The seat is manufactured of 100 % recyclable polyester felt which also has great acoustic absorption capacities. Kola is aesthetically and weight wise a light chair, making it fit both public and private modern interiors. The seat can easily be renewed which gives the chair a longer life cycle and accordingly it leaves a smaller ecological footprint.

With Kola you can create nice and friendly looking interiors. The seat has an appealing and flowing form, available black or dark grey. The upholstered cushion gives extra comfort and allows the use of playful colours. Kola suits exceptionally well in restaurants, casual meetings, waiting areas and lounges.

The Kola product family has been granted the internationally recognised GOOD DESIGN Award, admitted by The Chicago Athenaeum: Museum of Architecture and Design together with The European Centre for Architecture Art Design and Urban Studies.

KOLA ROCKING CHAIR

T

Tripla is a coat rack where shape meets function. The same crown is used in three different ways: in a triple leg or single leg free standing coat rack and as a wall attached hook. In the free standing versions you may use the crown for hanging and even storage small items like keys, mobile phones etc. Attached to the wall it can be used simply as a hook or with a coat hanger.

Design: Harri Korhonen

TRIPLA 3

TRIPLA 1

TRIPLA

SPINE

Spine (pending design concept) is hanging clothes in an ecological and sympathetic way. The resin reinforcement of the heavy duty corrugated cardboard is increasing the durability. Spine could also be a perfect present.

Design: Harri Korhonen

BONDO D-2, D-3 AND D-4

BONDO I-3

BONDO TABLE

BONDO I-4

Free form, solid, smooth, rounded, peaceful... From earlier lighter Bondo versions Bondo D is the new totally upholstered basic module for Bondo – the universally applicable lounge element for public and semipublic waiting areas. The range of compositions may vary from a bench or divan to a 2-seater sofa, thanks to the different shapes of the back elements. Bondo can be combined into different setups or lines or used as single seats. Design: Harri Korhonen.

BONDO D-3

Easy assembly without tools

KIILA LOUNGE RA

K

Kiila is the winner of the Inno Design Award competition. Kiila is a product family of chairs with different sized seats and various leg options and tables. Kiila has a unique style and identity, classic features with a modern twist and it fits naturally in interiors as meeting rooms, dining rooms, restaurants, bars, entrance areas, waiting rooms, lobbies and hotels.

"A chair must suit various interiors and users. To differ it must also have a character of its own. Kiila stands out in an inviting yet an anonymous way."

Designers: Maarit Hiltunen & Jarno Vesa

Cruiser waste separation system was designed in 1998, in cooperation with the end users. It was developed for environmentally friendly companies that wanted to take their ecological footprint in consideration and to start recycling office papers in their offices. At Inno we wanted to be a pioneer on the field and also encourage other companies to start thinking more on their actions, and how it affects the nature. Well planned, companies saved in waste cost which was a win-win situation for all parts. The Cruiser became such a success in only a few years that many other companies started to develop similar products. The product is still very popular and is now followed by a new version - Cruiser 2011.

SILENCIO

S

Select is a balanced and comprehensive design furniture collection for hotels, lounges, conference rooms to auditoriums, dining rooms, cafeterias, classrooms etc. The distinct form and numerous material and leg options offer complete freedom to create different furnishings for interiors. The shape of Select gives a hint of comfort and Select fulfills that commitment. For a creative mind Select works as a perfect tool. That's why we've kept the shape simple and the versions versatile. Select yours.

Design: Harri Korhonen 2001-

SELECT

SELECT

S

Selectum is a highly versatile auditorium chair with many upholstery and finishing options. Its slightly curved shell gives perfect comfort even for longer sitting. The basic form is practical – the generous Selectum looks natural and aesthetic in rows. A single fixed chair can easily be grouped to curved or straight rows to form different setups with variable distance between chairs etc. Optional armrests and a folding writing tablet.

Design: Harri Korhonen

SELECTUM

OSCAR

Oscar is one of Inno's best sellers and on its way to become a design classic. The popularity is based on its sympathetic character. Oscar is a tempting chair! Just have a look at it and you want to try it. The sitting comfort is remarkably good due to the spring effect of the backrest. A lot of tension is created between the light and structural backrest and the lumpy, yet friendly seat. Design: Harri Korhonen.

Oscar is a good example of a typical evergreen Inno chair, where a timeless design combined with high quality reduces the ecological footprint. 

OSCAR A1

Case magazine/brochure holders are available as wall mounted and as freestanding. In Case, form follows function: The minimal, stylish design gives the products a strong architectural impression. The similarities in form language and design of the Ad Case versions are easily recognized, but compared to the magazine holders, there is a big difference in use. The main focus in the brochure holders is to keep a maximum area of the brochures visible, giving out as much information as possible. The main idea behind the magazine holders is on the other hand to hide as much as possible of the restless front covers making interiors look more peaceful. Like the magazine holders, the brochure holders should also be seen as a part of the surrounding architecture. Case looks good in single units or in bigger dynamic groups. Design: Mikko Laakkonen.

In-tensive is a forerunner of modular electrified meeting tables. First introduced back in 1998 in Nokia Research Center In-tensive has proven useful in meeting rooms all over the world. The modular structure, table tops in different shapes, sizes and materials and a large variety of leg versions make In-tensive suit both modern and classical interiors. All In-tensive tables have a spacious cable tray for easy cable management and different connections. For total range see separate brochure.

Design: Jouni Leino

IN-TENSIVE

Oka comes in three versions: hanging, free standing and as a wall attached coat rack. Oka A hangs from the ceiling in a steel wire, doesn't take floorspace and makes cleaning much easier. It's equipped with 6 hooks and a height adjustment mechanism. The free standing coat rack Oka B is equipped with 6 hooks. The wall attached Oka C coat rack is available with either 3 or 5 hooks. Because of the very small width, there is a good possibility to use Oka C in narrow areas like on pillars. It also works in larger rows.

Design: Teppo Asikainen
